TREATMENT SUPER HiVISION EX3

**YOUR LENSES
ARE THE WINDOWS TO
YOUR WORLD**

See why Super HiVision EX3™
lens treatment is worth asking about.

HOYAVISION.COM

EX3

ENHANCES YOUR APPEARANCE AND
GUARDS YOUR INVESTMENT.

Our Super HiVision EX3 treatment allows more light to reach your eyes, which optimizes your sight. But the most impressive aspects of EX3 are things you won't even notice.

More light to the eye means you see better in office light and while on the computer... good-bye eye fatigue. Plus your eyes are more visible by eliminating annoying glare on your lenses.

Driving at night can pose a number of challenges for eyeglass wearers. With EX3 those blinding headlights and sign reflections are diminished which makes night driving safer. And by removing glare, vision is comfortable and clear. EX3 provides superior scratch resistance to protect your investment.

Repels dirt and dust, so you can make cleaning your glasses a lot less of a habit.
